

1.2 Navigating between projects

Preconditions:

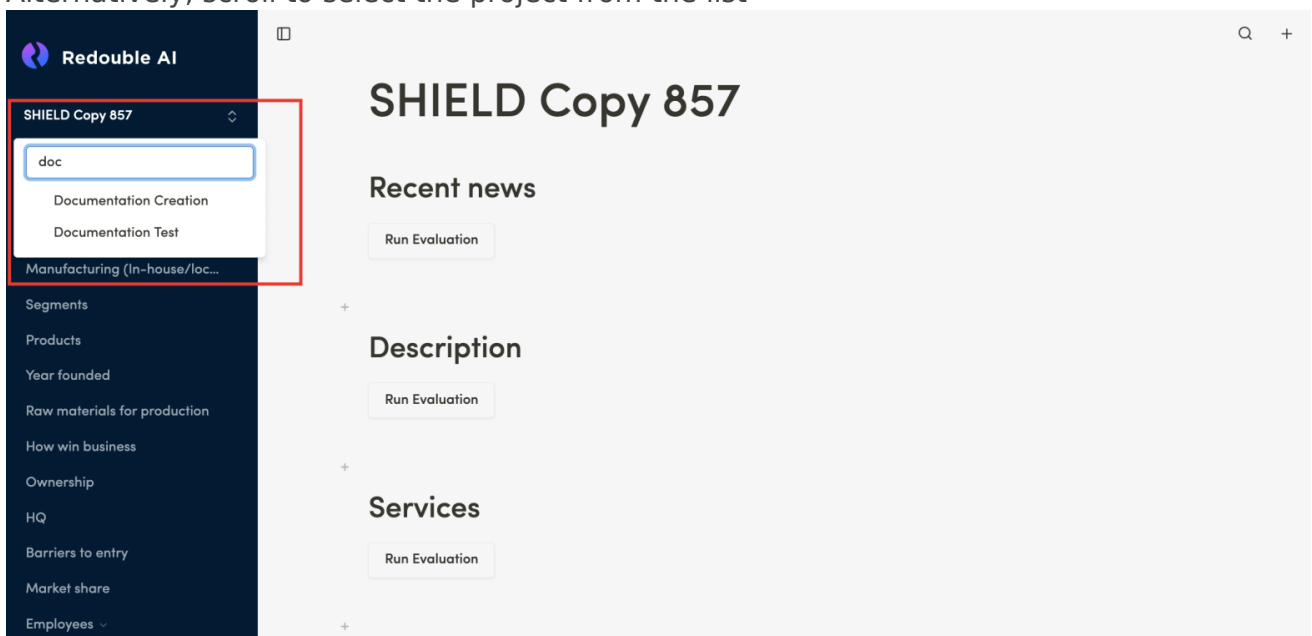

- You are logged into the Redouble AI system
- At least one project exists in the system

Steps:

1. In the left sidebar, click on the current project name or the arrow icon
2. A dropdown menu will open and display:
 - "Search projects..." — a search field enabling quick project lookup
 - A list of all available projects

3. Select the needed project from the list or use search:
 - Enter the project name in the search field
 - Alternatively, scroll to select the project from the list

Result: You have switched to the selected project. The project's main page will open with all its questions and documents.

Additional information: The project list is displayed in order of last use or creation. The current active project is marked in the list.

Revision #8
