

# 2.1 Creating a question

## Prerequisites:

- You are logged into the Redouble AI system
- You have a project open
- Documents for analysis are attached to the project

## Steps:

1. Below the title of your project, press the "+" button to add a question

2. In the "Add New Question" dialog box, fill in the following fields:
  - **Question Title** — enter the question name, which must be unique to the project.

- **Research Prompt** — enter a detailed description of what needs to be found or analyzed in the input documents.
