

3.3 Project sharing

Preconditions:

- You are logged into the Redouble AI system
- You have at least one project
- Click on the "Document settings" icon and select "Project Sharing" in the "Workspace" list

Share With User (Required)

Field Type: Dropdown selector

Purpose: Choose a specific user or group to share project with

Sharing Mode (Required)

Field Type: Horizontal list with access level options

Purpose: Allows to chose the level of access to the project:

- Read - View-only access (can see project and documents but cannot edit)
- Edit - Can view and modify project content (currently selected in your screenshot)
- Full - Complete access including project settings and management

Share Project Button

Purpose: Blue button to confirm and grant access to the selected user/group

Default state: Inactive

People with access Section

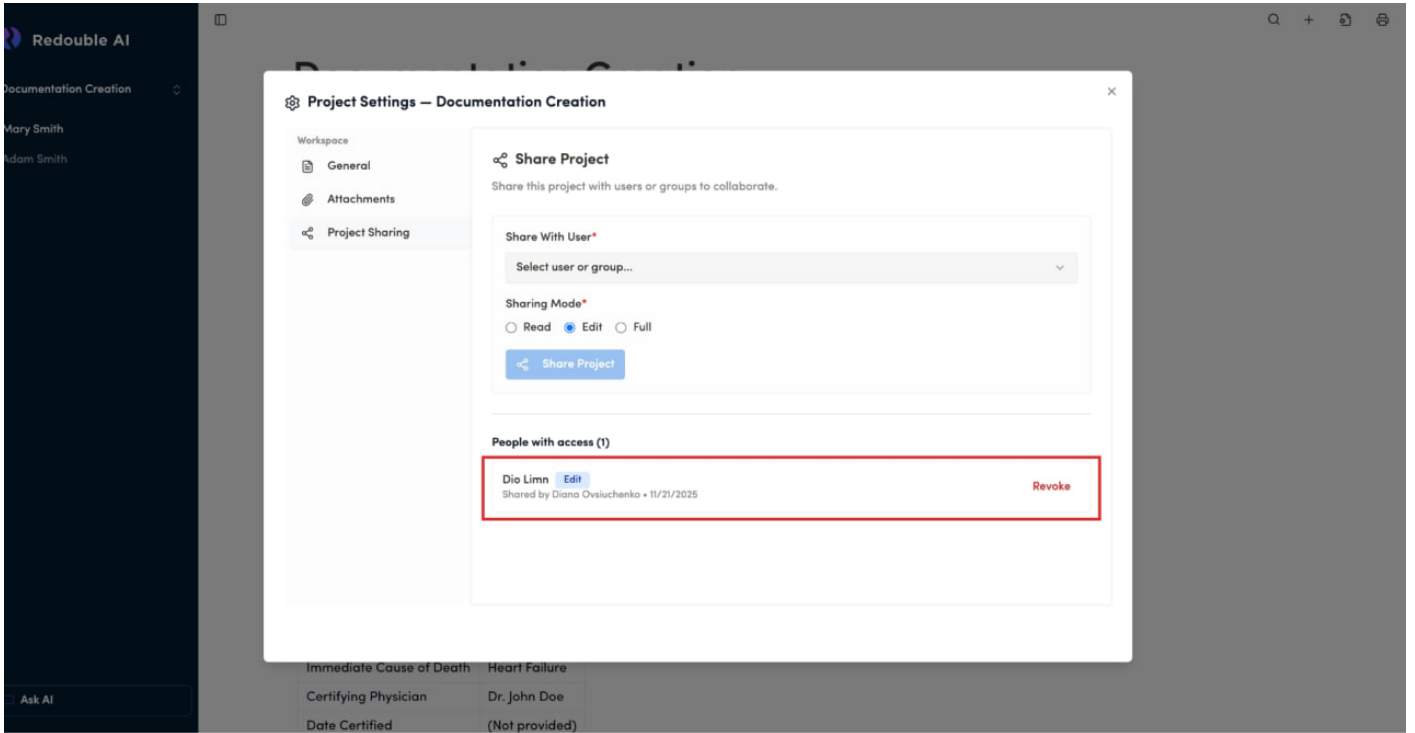

Purpose: Lists all users/groups who currently have access to the project. Shows their permission levels

Default state: "No one has access to this project yet" label

People with access List

Consists of list of users who have access to the project. Each item in the list consists of:

- User name
- Level of access label (Read, Edit, Full)
- Name of user who granted access
- Date when access was granted (MM/DD/YY)
- "Revoke" button
- Counter near the "People With Access" label, that indicates total number of users in the list
